ABOUT

A computer science graduate with a passion for frontend web development. An avid learner and problem solver. Always eager to take on new challenges and stay current with the latest web development trends. Strong foundation in programming concepts, and experience in modern technologies such as HTML, CSS, JavaScript, and their frameworks and libraries.

EXPERIENCE

Web Development Experience

- Developed for 6 large websites using HTML, CSS, JS, ReactJS, NodeJS & MongoDB.
- Built a Stock Trading App that displays real-time stocks data, stocks tracking and stocks history & market analysis etc. using APIs and data visualisation charts.
- Built a drugs search engine that gives users info on drugs such as descriptions, dosage, warnings etc. based on user search queries.

Graphics Designer | iservng Technologies
March 2021 – February 2022

Worked as an in-house graphics designer to develope a brand for iservng Technologies. I was responsible for designing their brand identity and various marketing materials such as brochures, flyers, and social media graphics.
